We need your help! As you may already know, we receive NO funding from the National Humane Society, our local state or federal government. The Humane Society of Highlands County is a non-profit corporation, operating 100% on donations. All the money we receive comes from individuals like yourself, who make a voluntary contribution to help keep our homeless animals alive and cared for. Through all our efforts, we are able to provide shelter for lost, abused and abandoned pets.

The animals are asking for your help! Your participation in the future of our shelter is desperately needed and greatly appreciated. Memberships are the lifeline of the Humane Society. Without members who are willing to contribute to the welfare of the Humane Society it would soon die and fail to exist.

We appreciate your unselfish giving of your time and monies and it is always heartwarming to see the generous support given to our shelter each year. Please join us in our efforts to care for the unwanted and abandoned animals of Highlands County.
